**My relationship to industrial area issues**  
Mon lien avec les sujets autour des zones industrielles

From 2010 – 2015 I launched with the Ministry of Industry and the French Chamber of Commerce and Industry in Morocco industrial zones in casablanca-Settat Region. Since 2015, I lead the industrial land activity in the frame of the second compact signed between the Moroccan Government and the Millenium Challenge Corporation (MCC).

**My relationship to sustainability topics**  
Mon lien avec les sujets autour la durabilité

Sustanability in MCC projets are a real concern. Projects undertaken as part of programs funded under Millennium Challenge Compacts must be environmentally sound and designed to operate in compliance with applicable regulatory requirements, and, as required by the legislation establishing MCC and must not likely to cause a significant environmental, health, or safety hazard.  
I got familiarity with sustsanibility through my work with a multi-disciplinary team in the design of the industrial land activity.
