My relationship to industrial area issues
Mon lien avec les sujets autour des zones industrielles

Over 29 years of professional experience in various capacities at the Central Pollution Control Board of the Indian government and GIZ dealing with the industrial area issues related to planning of industrial areas, industrial siting, eco industrial parks, infrastructure planning, pollution control, standards etc.

My relationship to sustainability topics
Mon lien avec les sujets autour la durabilité

Did extensive work on sustainability of industrial areas since 1987. Presently working on topics related to environment-friendly industrial production, sustainability standards for industrial areas, industrial waste water management, policy matters, climate change adaptation in industrial areas. Trained different teams in India responsible for industrial park planning and development on sustainability standards and their integration in industrial areas. Undertook pilot work in India in integrating sustainability standards in the site master plans of the industrial areas. Was a team lead for an industrial siting project that mapped over 100 districts in India to identify suitable sites for industrial areas. Worked on Eco Industrial Parks concepts and their implementation in India.

7-lines-summary CV to present you to the audience (professional background; job today; relevant former occupations / activities)

Une synthèse de votre CV sur 7 lignes pour vous présenter envers l'audience (expérience professionnelle ; travail aujourd'hui ; d'autres occupations / activités pertinentes dans le passé)

Mr Raghu Babu Nukala holds a degree in engineering and a post-graduate degree in city planning with specialisation in industrial area planning. He has undergone training in Germany over different years and worked closely with international experts on the topic of sustainable industrial areas. He worked in the central government's environmental regulatory agency for over 15 years and was closely associated with industry in ensuring environmental compliance. He worked with GIZ since 2004 on the topics of sustainable industrial development. Presently, he is Project Director in GIZ India responsible for the projects on Sustainable Industrial Production and Climate Change Adaptation in Industrial Areas. He is also the speaker of the Sustainable Industrial Areas Working Group of GIZ that has member projects from across the globe.
